Remarks:

My initial try at a post-Tito memo outline is attached. The percentages shown in parens after the major subject headings are my suggestions for the proportion of the paper which might be devoted to those topics. Within the second section, emphasis would be on sub-paragraph C: The Principal Internal Factors Which Will Affect Future Developments. The fifth section (Scenarios) would attempt to combine the internal and external considerations discussed earlier and apply them to the three general types of situations flagged as possible contingencies in section three.
